

Tour in Western Sicily and the Aegean islands

16-23
of May 2024

What historical secrets do the Giudecca's of ancient Sicilian cities still keep? Where can you see the Western Wall in miniature? What dish did the Jews leave as a "memento" of themselves when they left the island back in the XV century? Jews and corals - what connects them?

These and many other questions will be answered for everyone who is interested in the history of the Jewish people, their European destiny, and the peculiarities of living in Sicily.

And everyone who comes with us on this journey will be able to enjoy spring on the most beautiful Italian island, unique dishes of the south of Italy, well-preserved Sicilian

traditions, including songs, dances, theater. Together we will travel back in time among the ancient Greek ruins, feel like nymphs and fauns after bathing in ancient thermal springs, and become puppeteers in a traditional ancient puppet theater in the Sicilian capital - Palermo.

And finally, we will replenish our photo albums with truly incredible shots, which we will review for many, many years, asking the essential question: have we really been there and seen everything with our own eyes?!

Tour Price: 1050 € (if the tour is partially or fully paid before 28.02)
